# Muhammad Hamza Shabbir

**Principal Engineer | Team Lead | Full-Stack Developer**

Zafarwal, Punjab, Pakistan ▪ Open to Remote (Worldwide), Hybrid, and On-site roles outside Pakistan
mhamzasulehri143@gmail.com ▪ +92 304 2445911 ▪ linkedin.com/in/mhamzase ▪ github.com/mhamzase ▪ mhamzase.github.io

## Professional Summary

Principal Engineer and Team Lead with **7+ years** of experience in full-stack development (Laravel, PHP, Vue.js, React, Python). I design and build scalable products that businesses run on every day: SaaS platforms, learning systems, and e-commerce stores — including a learning platform with **2,700+ students** and a university platform serving **10,000+ students**. **72+ projects** delivered for **26+ clients**. Current focus: SaaS product development, AI-driven automation, and system architecture. I lead development teams, mentor junior developers, and stay involved from requirements and architecture to launch and improvement.

| 7+ | 72+ | 26+ | 10,000+ |

## Experience

**Senior Software Engineer & Tech Lead — Self Employed, Lahore (Hybrid)** — Nov 2023 — Present

- Lead products: AK Tailor App, a multi-tenant SaaS for tailor shops, and AK Designer Art, a learning platform with **18 courses, 2,700+ students and 20 instructors**.
- Full-stack development, AI-driven automation, and system architecture, helping businesses modernise workflows and reduce operational costs.
- Lead development teams and mentor junior developers, from requirements and architecture to launch and improvement.

**Senior Software Engineer — ByteCrew, Lahore (On-site)** — Jun 2022 — Oct 2023

- RESTful API and full-stack development with Laravel, Vue.js, and Python.
- Integrated third-party services to enhance functionality, scalability, and performance.

**Software Engineer — University of South Asia, Lahore (On-site)** — May 2021 — Apr 2022

- Developed and maintained university management systems and student-facing portals serving **10,000+ students**.
- Built a student management system handling **10,000+ records** with real-time updates; created REST APIs used by the mobile app and the web platform.
- Optimised database queries and reduced page load time by **35%**.

**Full-Stack Developer — VU Software House, Lahore (On-site)** Mar 2020 — Apr 2021

- Built **10+ client websites** and web applications from concept to launch, through the full development lifecycle.
- Integrated Stripe and JazzCash payment gateways for e-commerce platforms.

## Key Projects

**AK Tailor App — Lead Developer** tailor.aktechsol.pk
Multi-tenant SaaS for tailor shops: orders, measurements, payments, and credit (udhaar) in one place; every shop gets its own separate workspace. Laravel, PHP, MySQL, JavaScript, Spatie RBAC.

**AK Designer Art — Lead Developer** akdesignerart.com
Online learning platform with **18 courses, 2,700+ students, and 20 instructors**; enrollments, installment plans (2–6 months), and four panels: admin, student, instructor, and referral. Laravel, MySQL, Spatie Media Library.

**University of South Asia — Full-Stack Developer** usa.edu.pk
Official university platform serving **10,000+ students**, with course management, faculty profiles, news, events, and an admissions portal. Laravel, HTML5, CSS3, JavaScript.

**AK Tech Sol — Full-Stack Developer** aktechsol.pk
Agency website and business system: inquiry to proposal to project to invoice in one admin panel, with multi-currency proposals and invoices. Laravel, Tailwind CSS, JavaScript, MySQL.

**We Are They — Full-Stack Developer** joinwatt.com
Membership platform for a community movement, with programs, events, resources, and subscriptions. Laravel, React.js, MySQL, REST APIs.

**Office Makeup — Full-Stack Developer** officemakeups.com
Shopify e-commerce store for a cosmetics brand serving customers across Lebanon. Shopify, Liquid, JavaScript, CSS3.

**Developer Toolkit — Creator** Chrome Web Store
Chrome extension with **16 developer tools** (JSON formatter, JWT decoder, regex tester, and more), running 100% locally in the browser; rated **5.0** on the Chrome Web Store. JavaScript, Chrome Extensions API.

## Education

**BS Software Engineering** — Virtual University of Pakistan ▪ March 2017 — February 2021
CGPA: **3.4/4.0**. Graduated with distinction in Software Architecture and Web Technologies. Focused on web development, database systems, and software architecture.

**Diploma in Computer Science** — Technical Education & Vocational Training Authority (TEVTA) ▪ August 2016 — February 2017
Top performer in the batch. Hands-on training in C++, Java, and web fundamentals.

## Certifications

AWS Certified Developer — Amazon Web Services (2023) ▪ Laravel Certified Developer — Laravel (2022) ▪ Vue.js Advanced Patterns — Frontend Masters (2021) ▪ Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft (2024)

## Languages

English — Professional working proficiency ▪ Urdu — Native or bilingual proficiency
