PROFESSIONAL SUMMARY

Principal Engineer and Team Lead with 7+ years of hands-on experience in full-stack development. I turn business problems into clean, scalable digital solutions, and I stay involved through the whole journey: understanding the requirements, designing the system, building it, launching it, and improving it over time. I have led development teams, mentored junior developers, and delivered products that businesses run on every day, from SaaS platforms and learning systems to e-commerce stores. My current focus is SaaS product development, AI-driven automation, and system architecture.

7+ years of experience · 72+ projects delivered · 26+ happy clients · 4 industry awards

TECHNICAL SKILLS

Frontend	HTML5 and CSS3, JavaScript (ES6+), React.js / Next.js, Vue.js, Tailwind CSS / Bootstrap

Microsoft Certified: Azure Fundamentals (AZ-900), Microsoft, 2024

PROFESSIONAL EXPERIENCE

Senior Software Engineer & Tech Lead

Nov 2025 to Present

Self Employed · Lahore, Hybrid

Working as a Senior Software Engineer and Tech Lead, leading engineering teams and delivering scalable digital solutions for clients across various industries.

- Focus on full-stack development, AI-driven automation, and system architecture
- Helping businesses modernize their workflows and reduce operational costs
- Building products that grow with the business

Technologies: Full-Stack Development, AI Automation, System Architecture, Team Leadership

Senior Software Engineer

Jun 2023 to Oct 2025

ByteCrew · Full-time · Lahore, On-site

- RESTful API and full-stack development with Laravel, Vue.js, and Python
- Integrated third-party services to enhance functionality, scalability, and performance

Technologies: Laravel, Vue.js, Python, REST APIs

Software Engineer

May 2021 to Apr 2022

University of South Asia

Developed and maintained university management systems and student-facing portals serving 10,000+ students.

- Built a student management system handling 10,000+ records with real-time updates
- Created REST APIs used by the mobile app and the web platform
- Optimised database queries and reduced page load time by 35%
- Worked with cross-functional teams to deliver features on tight deadlines

Technologies: Laravel, Vue.js, MySQL, Git, REST APIs

Full-Stack Developer
Mar 2020 to Apr 2021

VU Software House

Built web applications from scratch for different clients, working through the full development lifecycle.

- Developed 10+ client websites and web applications, from concept to launch
- Built responsive designs that work properly across devices
- Integrated Stripe and JazzCash payment gateways for e-commerce platforms
- Turned Figma and XD designs into pixel-perfect working pages

Technologies: PHP, Laravel, JavaScript, Bootstrap, MySQL, Git

SELECTED PROJECTS

AK Tailor App · Lead Developer · SaaS Product
Multi-tenant SaaS for tailor shops: orders, measurements, payments, and udhaar in one place instead of paper registers; shops run their daily work on it. Laravel, PHP, MySQL, JavaScript, Spatie RBAC.

AK Designer Art · Lead Developer · LMS Platform
Online learning platform: enrollments, installment plans (2 to 6 months), and panels for admins, students, instructors, and referral partners. Live with 18 courses, 2,700+ students, 20 instructors. Laravel, MySQL, Spatie Media Library, JavaScript.

USA · Full-Stack Developer · Web Platform
University platform serving 10,000+ students: course management, faculty profiles, news, events, and admissions. Laravel, HTML5, CSS3, JavaScript, Git, GitHub.

Inviggr · Lead Developer · SaaS Platform
SaaS platform for social media scheduling, analytics, and team collaboration from one dashboard. Laravel, React.js, MySQL, Redis, REST APIs, GitHub.

Propreitors · Full-Stack Developer · Marketplace
MVP for buying, renting, and selling property: listings with images, location search, and agent connections. Laravel (Lumen), React.js, Next.js, JavaScript, GitHub.

We Are They · Full-Stack Developer · Community Platform
Membership platform for a men's community movement: programs, events, resources, and community tools. Laravel, React.js, MySQL, REST APIs, GitHub.

AK Tech Sol · Full-Stack Developer · Agency Website
Agency website and business system: inquiries and quotations flow through one admin panel, from proposal to project to invoice. It runs the agency's daily operations. Laravel, Tailwind CSS, JavaScript, MySQL, GitHub.

Officé Makeup · Full-Stack Developer · E-Commerce Store
Online store for the Officé Makeup cosmetics brand in Lebanon, built and managed end to end: storefront, catalog, and deployment. Shopify, Liquid, JavaScript, CSS3.

Developer Toolkit · Creator and Developer · Chrome Extension
Chrome extension for everyday developer tasks: private and local, with no code pasted into random sites. Published on the Chrome Web Store under HS TECH SOL. JavaScript, Chrome Extensions API, HTML5, CSS3.

Maria Consultancy · Web Developer · Consultancy Website
Website for a London education consultancy guiding students into top universities worldwide for over a decade; services free for students. WordPress, Elementor, PHP, CSS3.

Social Aviation · Frontend Developer · Agency Website
A marketing website for a digital agency, built to convert. It includes a portfolio showcase, case studies, and a lead generation funnel. HTML, CSS, Bootstrap, JavaScript, GitHub.

EDUCATION

Bachelor of Science in Software Engineering
Mar 2017 to Feb 2021

Virtual University of Pakistan

CGPA: 3.4/4.0. Focused on web development, database systems, and software architecture. Graduated with distinction in Software Architecture and Web Technologies. Final year project: a real-time collaboration platform built with WebSockets.

Diploma in Computer Science
Aug 2016 to Feb 2017

Technical Education and Vocational Training Authority (TEVTA)

Practical training in programming, networking, and IT fundamentals. Top performer in the batch. Hands-on training in C++, Java, and web fundamentals.
